

19.5 20 years of Narda

When a classic Hidden Champion gets to 20 years old, that's always a good time to take a quiet look back at the success story behind it. Many of the important milestones in the now two decades old history of the company have, as the name suggests, been largely hidden from view. Narda Safety Test Solutions has quietly but steadily developed into one of the world's leading technology companies for measuring equipment for electric, magnetic, and electromagnetic fields (EMF). And the story so far is really worth a look.

Follow us on this journey [here](#).
