

25.2 EMF area monitoring countrywide: Serbian regulatory authority plays it safe

The Serbian regulatory authority [Ratel](#) doesn't leave anything to chance when it comes to the exposure of their population to electromagnetic fields. They monitor the exposure levels 24/7. Their exemplary area monitor network, which covers the whole of Serbia, is visible to everyone on the Internet. It is based on Narda [AMB-8059 Broadband Monitors](#) and has joined the long list of national EMF monitoring projects (see below). This helps clear up any concerns and anxieties and clarify matters, thus improving transparency.

Example EMF monitoring projects:

Swiss environmental authorities project >> [Read more](#)

Greek Atomic Energy Commission project >> [Read more](#)

Romanian government authority ANCOM project >> [Read more](#)

Athens Technical University project >> [Read more](#)

Fondazione Ugo Bordonni project in Italy >> [Read more](#)

Project in Israel >> [Read more](#)

Project in Paraguay >> [Read more](#)

Project in Serbia >> [Read more](#)

Software updates, data sheets, and operating manuals:

The latest software updates for the [AMB-8059](#) Area Monitors and the [AMS-8061](#) are available for download from the Narda website.

The NardaAMInstaller, which replaces the NardaConfigurator with immediate effect, is the configuration assistant that helps you to set up the AMB-8059 and AMS-8061 monitoring stations. The updated Version 15 is also now available for download from the Narda website [here](#).

There is an updated [data sheet](#) as well as an updated [operating manual](#) available on our website for the stationary high frequency warning device from Narda, the SMARTS II.

Instrument demonstration:

If you would like a demonstration of these or other Narda products, contact your local [Narda sales partner](#) and ask about availability.

Seminars:

The [seminar “Exposure measurements on wireless transmitters with the SRM-3006”](#) is aimed at beginners, more experienced, and professional users in the field of selective measurement. Register for this seminar now [here](#). You can also ask our [sales partners](#) about individual seminar dates. The next date is October 18 – 20, 2021.

Want to keep up with the latest news? Check regularly for further updates at Narda [here](#).
